

Operating Fund Renewal

Thanks to you... for voting Yes.

The Columbia 9-1-1 Communications District Board of Directors, staff and campaign volunteers and supporters thank all the voters in Columbia County who took the time and effort to get their ballots in. Your overwhelming support demonstrates how much you value and rely on our vital 9-1-1 service. It also means that Columbia 9-1-1 will continue to provide its current level of excellent service for the next five years — at the same low rate.

Thanks to you... we'll still be here.

We are serious about our commitment to you, the citizens and communities we serve. We're also dedicated to our vital role in linking the emergency medical services, law enforcement and fire agencies throughout the county. We've been able to deliver on our promise to be highly efficient and effective — and we will continue to keep those promises in the future.

Thanks to you... for your strong support.

It takes skill and a good-faith team effort to provide reliable 9-1-1 communications to every corner of the county. It also takes support and good-faith from voters. You. We thank you again for your confidence, for the challenge to keep improving and for the resources we need to get results. Remember, when seconds count, call 9-1-1 first.
